An enthusiastic and growth mindset Junior Frontend Developer with proficient knowledge in HTML and CSS, as well as third-party libraries such as React. Seeking to utilize my technical skills and expertise to provide value to the employer and contribute to successful projects both today and in the future. Aiming to take on new challenges and utilize my coding and debugging skills for de

Experience

Junior Software Dev - Generation Thailand JDS5 *2023 - Present*

Colmar Academy (Responsive Web Design)

Utilized HTML, CSS, and Bootstrap to develop a responsive web design project.

Admin Monitor Panel

Designed a responsive web application using React.js. Implemented admin functions for table management.

Workout Application (Final Project)

Developed a comprehensive web application using MERN stack (MongoDB, Express.js, React, Node.js). Calculated MET from exercise choices and daily calories. Admin dashboard with CRUD features. User-friendly charting for tracking progress.

Orange - Thailand *2022*

I had the privilege of serving as a Frontend Developer at this establishment, where I was able to broaden my skill set as a UXUI Designer and Website Developer. My responsibilities included the creation of bespoke designs tailored to the specific needs of our clients, utilizing the Figma program. To bring these designs to life on the website, I expertly employed HTML and CSS in conjunction with the Bootstrap framework.
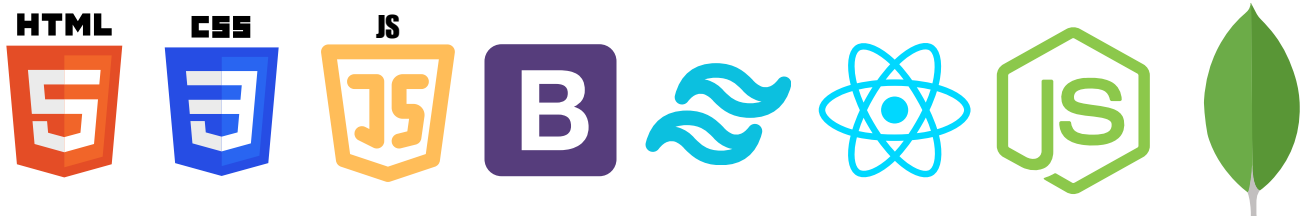

Education

High School *2012-2017*
